The top half of the page features a vibrant red background with several white, stylized geometric shapes. These shapes are composed of thick, angular lines that form various L-shaped and zig-zag patterns, scattered across the upper portion of the frame.

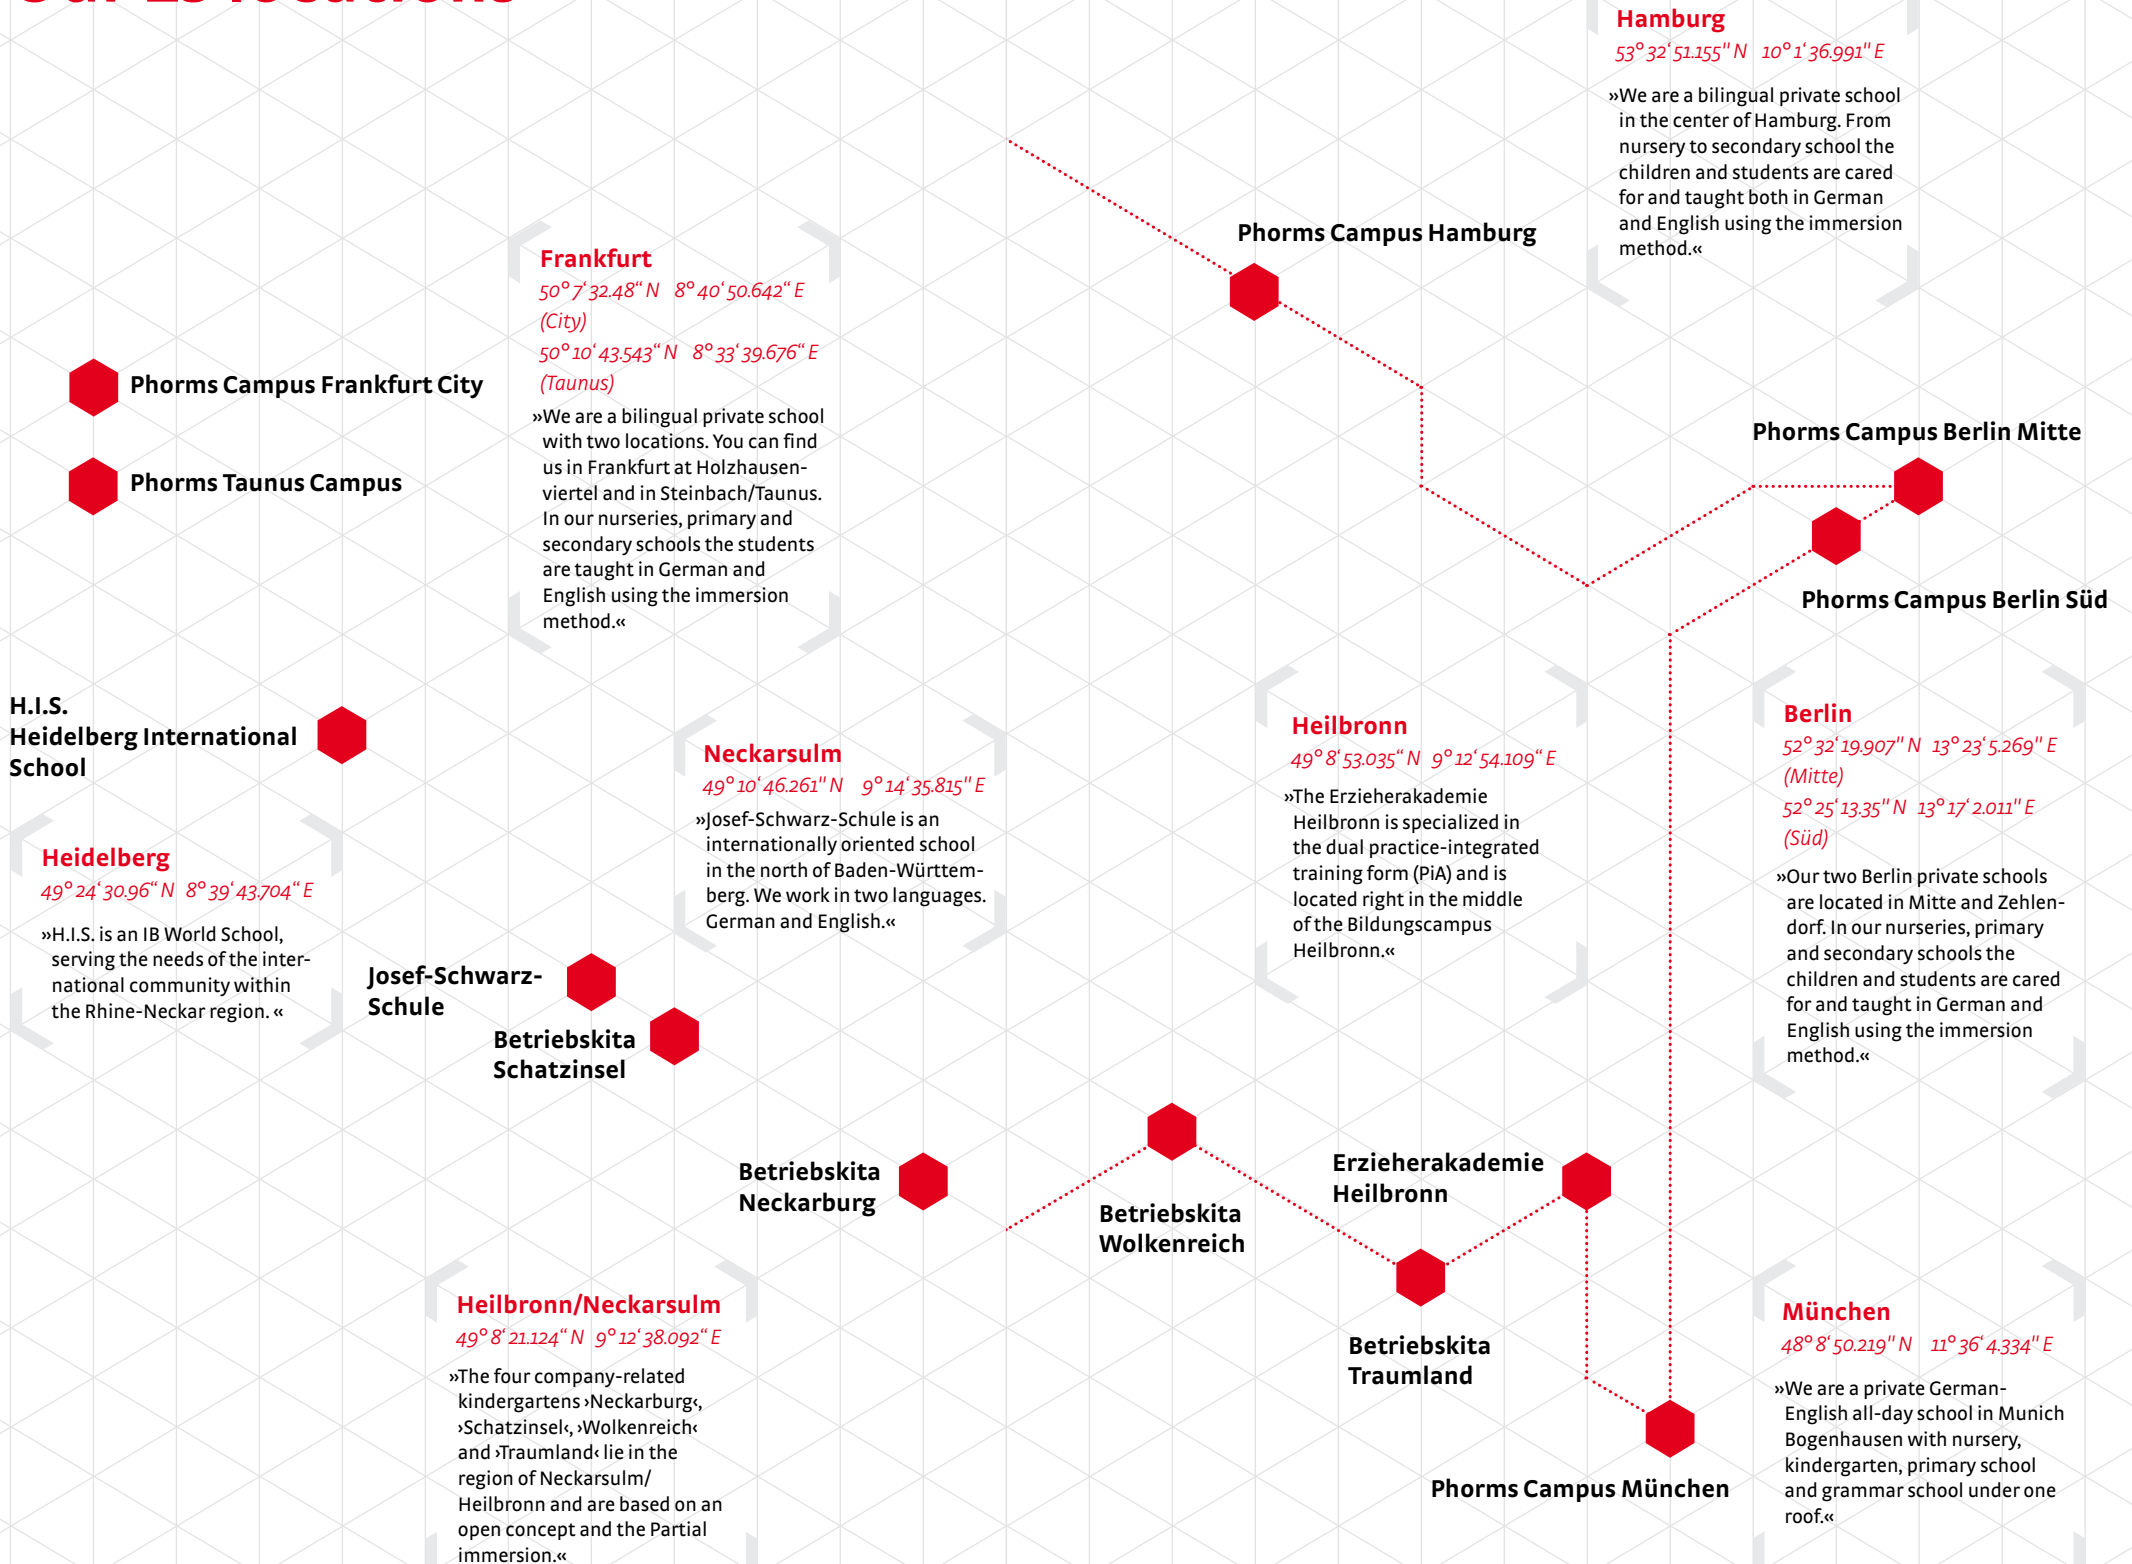

WE EDUCATE FOR THE WORLD

Our Guiding Principles

Our Mission

We create a shared dynamic of respect, tolerance and unity through the power of bilingualism on a local level and the diversity of different cultural backgrounds. With combined strengths we invest our energy into growing, developing and being.

Our 7 Guiding Principles

Through our **vision**, we describe the future we are working toward with our **mission**.

Seven **guiding principles** are the basis for our actions. They are intended to guide us through everyday life.

Our Vision

We are making a valuable contribution to a better world through education. We combine our strengths to help the next generation become holistic thinkers and responsible people who promote global unity through their individuality and open-mindedness.

1

Quality and Responsibility

We are aware of our responsibility. We dedicate our skills and enthusiasm to pursuing our quality standards on a daily basis.

With joy to good results

We teach students how to perform at their best. We enable children and young people to learn and associate joy in learning with experiences of success.

2

3

Mindfulness and Caring

We give our children and young people the attention they need. We are there for our students, offering care and mindfulness.

4 Respect and Tolerance

We promote respectful and tolerant interaction. Our interculturality and bilingual community create an open-minded environment.

5

Freedom for Creativity

We make room for creativity. By providing support for the implementation of original ideas, we enable every individual to get involved and develop themselves.

A group of diverse children, including boys and girls of various ethnicities, are smiling and posing together on a soccer field. One child in the foreground is holding a large soccer ball. The background shows a green fence and other children in the distance. The image is framed by a large red graphic element that splits the page into two sections.

6

Growth through Flexibility

We stay flexible, which allows us to keep growing. Our dynamic approach means we can react to change and maintain a high level of potential for innovation.

7

Community in Cooperation

We are a community. Through our openness and mutual support we aim to make everyone feel at home at Phorms.

»Immersion is the connecting element of our entire educational offer – from the nursery to the secondary school. The immersion method, coupled with our Germany-wide network and the cultural backgrounds of our employees and families, makes the Phorms educational offer so unique and special. Our pedagogues from over 40 countries accompany, educate and guide the children and young people to living successfully by learning to take on a high level of responsibility for their thoughts and actions in global community.«
